

Lab Technician - Distillate

Location: Cathedral City, California

Company Overview

Sunniva Inc., through its subsidiaries, is a vertically integrated medical cannabis company operating in the world's two largest cannabis markets – Canada and California – where we are committed to delivering safe, high-quality products and services at scale.

Our business vision is to become the lowest cost, highest quality cannabis producer in the markets we serve by building large scale purpose built current good manufacturing practices greenhouses, offering better quality assurance with cannabis products free from pesticides, providing better patient and doctor access to cannabis education and sourcing better therapeutic delivery devices.

Sunniva is constantly seeking high calibre talent who bring excellence and enthusiasm to our expanding operations. We value uniqueness and different perspectives as they play a critical role in our success. To achieve this, individuals are selected based on qualifications, merit, and abilities.

The Role

The Lab Technician is responsible for navigating day to day post processing laboratory operations. This includes receiving materials, taking inventory and post processing steps after extraction. This also includes working with the BHO or CO2 Extractor to receive extracted product, assist the post processing steps, clean up equipment and conduct general lab duties.

Key Responsibilities

The key responsibilities for the position include, but are not limited to the following: Receive flash frozen biomass material from cultivation center, complete inventory check, stores material in the vault room, and process and prepare raw materials used in daily manufacturing.

- Prepare work space, equipment and materials daily.

- Assist QA Manager for post-processing steps, including Purge, DeCarb, Winterize, RotoVap, Filling, Packaging, general lab work and sample prep for analytics.
- Maintain high tech lab process equipment and ensure such machinery operates in a clean and organized environment.
- Schedule and perform regular maintenance, cleaning, and repairs of all equipment.
- Order necessary machine parts and upgrade equipment when necessary to ensure optimal performance.
- Perform some administrative tasks, such as documenting all machine maintenance, making equipment orders, and improving or developing safety guidelines for equipment use.
- Other duties as assigned

Qualifications and Experience

- Post-secondary education or Associate Degree in a related field.
- Must have 1 – 3 years' experience as a Lab Technician.

Skills, Knowledge, and Ability

The requirements listed below are representative of the knowledge, skills and competency required for this role:

- Strong knowledge and understanding of the Occupational Safety and Health Administration (OSHA) guidelines for workplace safety and hazardous chemicals.
- Compliance and understanding of Current Good Manufacturing Processes (CGMP) guidelines.
- Mechanical proficiency in understanding the operation of BHO, CO2, and VTA Distillate machines, including having the ability to service pressure vessel hoses, fittings, and using a wrench to take off fittings.
- Excellent knowledge of operations and repair procedures for the equipment.
- Proficient with the internet and has basic working knowledge of Microsoft Office.
- Must know how to read and use schematics related to manufacturing equipment.
- Excellent verbal and written communication skills including the ability to write reports, draft policies and procedures, develop presentations and conduct training sessions.
- Possess strong organizational skills.
- Ability to multi-task and work in a fast-paced environment.
- Demonstrate the ability to be flexible.
- Aptitude to push, pull, or lift heavy weights (50lbs or more), including sitting, squatting, standing, kneeling, bending, or walking throughout the workday.
- Ability to work well under pressure.
- Self-motivated, strong analytical skills and detail-oriented.
- Capable to work independently as well as in a team setting.
- Communicates well to all levels of the organization tactfully and professionally.

Working Environment

- Incumbent will be working in a laboratory setting.

Sunniva offers a competitive salary and benefits package.
